

Year 2 Snow Day 1

For the first day of snow we would like you to either wrap up warm and have fun in the snow or look out the window and watch the snow fall.

Build a snowman, how tall can they be? Can you measure the height of your snowman and send us a photograph?

Using your maths skills draw a snowman using 2D shapes and also look at the symmetrical patterns found on snowflakes.

Don't forget to read your reading book today and write in your reading record.

Have you got a snowy or winter book to read to one of your soft toys?
